

Research TWO PHONE APPS and compare and contrast them in a **VENN diagram**.

Choose **two apps** after you look at my presentation with student examples on my Google Slides presentation.

Submit your slide into the Google Slides presentation where your name has been provided so we can look at all of them together in one slide show.

The intersection in the VENN diagram provides the comparison of similar features or functions of each APP. If you are not sure how to input the information, speak to me. Be creative with the VENN diagram and **INCLUDE A LOGO** from EACH APP, please. Have fun!

What specific editing does each APP provide? What is the best feature you found? How much do they cost? Where do you find them? IOS or Android?

Some PHONE APP options: (choose your own, if you don't find one here you like).

| APP |
|-------------------|
| Photoshop express |
| Instagram |
| Retro Camera |
| Photo direct |
| Adobe Lightroom |
| Photofox |
| Pics Art |
| Pro Camera 8 |
